NEWS FOR MANAGERS & MECHANICS

Some good news that has come out of the COVID pandemic

Some good news, preliminary MCMIS data indicate a decrease of 19% in the number of large truck and bus-related crashes during the first half of calendar year 2020, compared to the first half of calendar year 2019. These statistics will naturally change as the States continue to report/upload additional 2019 and 2020 crashes in the coming months.

The number of injuries decreased by 24% and fatalities decreased by 10% when comparing the same periods in 2019
